

2nd EACR Conference

Defence is the Best Attack

Immuno-Oncology Breakthroughs

11 - 13 March 2019 • Barcelona, Spain

At the 2nd EACR conference on the topic of Immuno-Oncology we will learn about the most recent advances in the field of immunotherapy from the basic science to clinical studies including the identification of novel targets; an improved understanding of the mechanisms of action of therapeutic interventions; as well as discussions about biomarkers of response to treatment and mechanisms of intrinsic and acquired resistance to immunotherapy.

KEY DEADLINES

Abstract submission
03 December 2018

Bursary application
03 December 2018

Registration
01 February 2019

Topics

- Immune checkpoints
- Immunoediting
- Innate immune response
- Microbioma and the immune system
- CAR T cells
- Vaccination
- Biomarkers of response to immunotherapy
- Mechanisms of resistance to immunotherapy

Reduced registration rates and
Meeting Bursary Awards
for EACR members

Confirmed Speakers

George Coukos **Switzerland**

Karin de Visser **Netherlands**

Richard Flavell **USA**

Elena Garralda **Spain**
