

## Job Offer: Postdoctoral Position (Macrophage/Inflammation)

### Group of Gene Regulation of Cellular Plasticity & Differentiation in Inflammation and Cancer (IDIBAPS & ICREA, Barcelona, Spain)

The Gene Regulation Lab, an ICREA group at the IDIBAPS Research Institute (Barcelona, Spain), is looking for a postdoc to work on the **role of the plasticity EMT factors ZEB1 and ZEB2 in macrophages during acute** (sepsis) **and chronic** (autoimmune diseases, psoriasis) **inflammation**. The ZEB1 and ZEB2 factors play important roles in homeostasis and disease regulating stemness (normal/cancer stem cells), differentiation, tissue regeneration, and tumor initiation and progression.

The successful candidates will join a dynamic and international group of postdoc and PhD students in a leading research center in downtown Barcelona.

The projects make use of a wide array of state-of-the-art techniques, and *in vitro* and *in vivo* approaches including unique transgenic mouse models and high-throughput and OMICs technologies.

#### REQUIREMENTS

##### **Essential Requirements**

- ★ PhD degree in Biology or related biomedical discipline obtained not earlier than January 2019.
- ★ Strong publication record with at least 2-3 first-author articles in high impact journals
- ★ Solid background in Molecular and Cellular Biology.
- ★ Experience in mouse models

#### Desirable Experience

Candidates with proven experience in any of the following topics will receive higher consideration in the selection process: macrophage biology (acute/chronic inflammation, cancer) molecular oncology, metabolism, epigenetics, transcriptomics, and/or bioinformatics.

#### CONDITIONS

The positions are available immediately. The salary will be commensurate with the expertise and the publication record.

#### ADDITIONAL INFORMATION & APPLICATIONS

For further information about the work in the group visit <https://bit.ly/34r2VXT> & <https://bit.ly/3zWD3DG> Applications should include: a) complete CV, b) the names and contact details of three researchers that have supervised the candidate's work. Additional inquiries and applications should be sent to: [idibaps.postigo3@gmail.com](mailto:idibaps.postigo3@gmail.com) indicating "Postdoc Call Inflammation 2021" in the subject of the email.
